

AGPS

ADVANCED GEO POSITIONING SOLUTIONS, INC.

Eliminate drainage lasers with **AGPS Ditch Pro** and your GPS RTK steering system. This powerful program automatically designs ditches utilizing vertical curve or point to point algorithms.

The user friendly touch-screen allows you to survey, design or ditch by pressing a couple of buttons!

The **AGPS Ditch Pro** display gives you real time guidance and depth of cut information. When pulling out of a cut, the display automatically switches from profile to top view.

Ditch Pro

Your RTK GPS system isn't only for steering!

The AGPS Ditch Pro System can plug into a GPS RTK steering system in minutes!

Zynx X20 controller with profile view

GPS DITCHING IS AS EASY AS 1-2-3!

1. Drive to the high point and press a button
2. Drive ditch to low point and press a button
3. Start ditching!

Powerful!

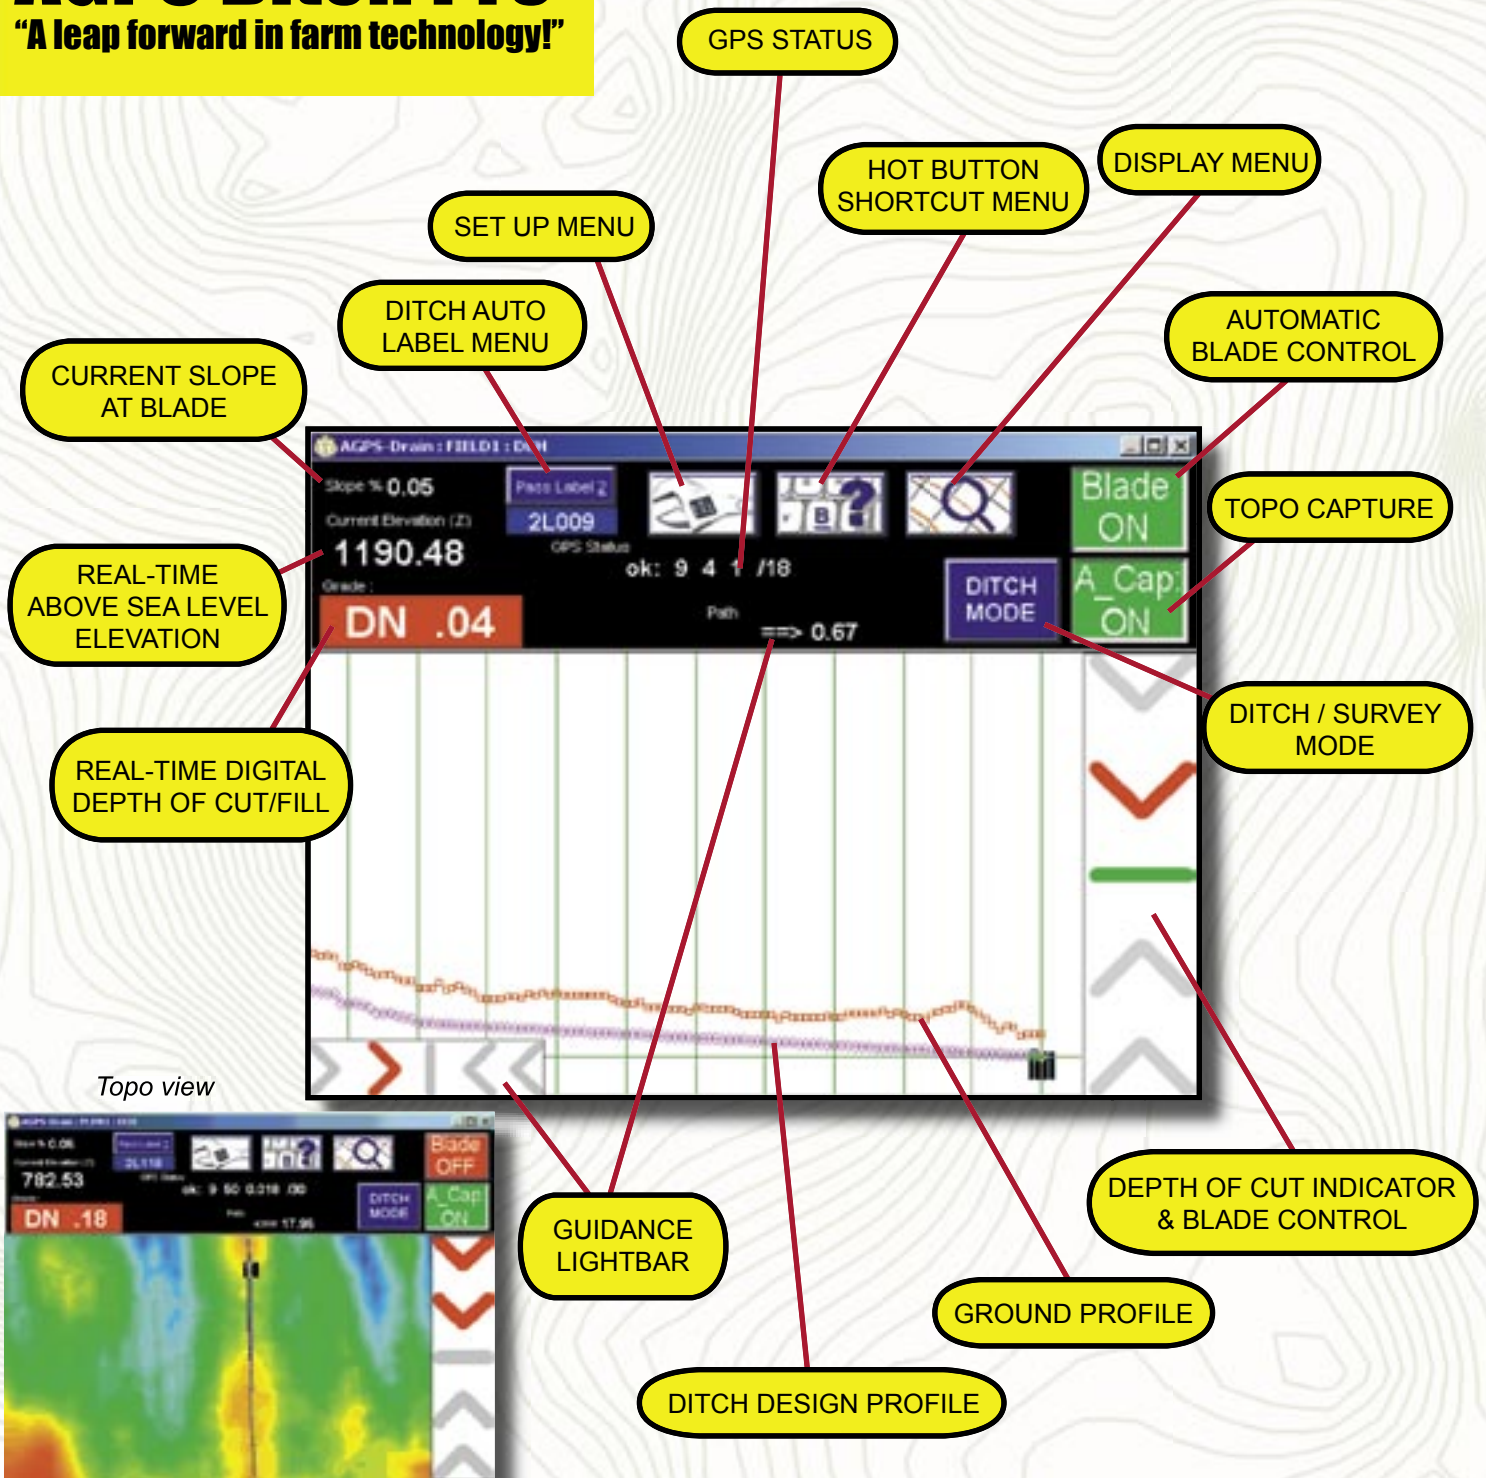

Save & recall fields * Auto-ditch naming
Touch-screen blade control * Survey mode
Create topo map * Import topo map
Real-time profile view * Real-time topo view

Machine Control option

Add automatic blade control to the package and enjoy a more precise cut with less operator fatigue. Plug and go with JD 8xxx or 9xxx series and CASE MX or STX tractors. An external valve is available for other tractor models.

AGPS Ditch Pro

"A leap forward in farm technology!"
